

Call for papers!

Papers are now being sought for presentation at the 6th International Carers Conference.

The themes for the conference are:

- Health, social care and well-being: how do modern societies and economies manage care in the face of demographic change and more mobile populations?
- Combining work and care: how can we support people to manage their working and caring lives, contributing to business, economic and social sustainability?
- Paying for care: how can we share the costs of care between the individual, family, community and the state? How can we ensure there is a vibrant market for care?
- Technology-enabled care and support: how can new technologies support the delivery of care, transform the lives of individuals and families and drive economic growth?

If your paper does not fit any of the themes above we are open to submissions on innovative projects and practice.

Papers selected will be presented in seminar sessions. Each presentation will be 15-20 minutes and there will be 30 minutes discussion following the presentation. Participants value time for debate so please do not plan to speak for longer than 15 -20 minutes.

To submit a proposal please go to:

<http://www.neilstewartassociates.com/sh323/papers>

Please be sure to identify a lead presenter for all correspondence.

Papers may be submitted in English or Swedish.

Deadline for submissions: Friday 27th February 2015
